# I`M not LONESOME

Ref:

don't touch me, I'm feeling down, down, down

8 days a week

you make me feel soo ... bada dam dam  
for once again I'm not so lonesome, baby  
I'm not a guy that's pretty handsome  
don't you know  
first of all I'll take a drink to find myself  
don't fucking need that thrilling book  
out of yourself

9 days a week

I have another beer now ... bada da dam  
did I hurt you I'm ashamed now, baby  
I'm still the same you can not change me  
don't you know  
in the end I'm sure you finally find yourself  
we'll both feel better then  
don't need a shrink that tells us "stop"

10 days a week

I'm fuckin' drunk now ... bada da dam  
for god sake babe now your lonesome  
I'm still the same, I'm not so handsome  
in the end I'll take my drink to find myself  
hope you're fine,  
don't share my life,  
don't need your hand

# Worst WAY

REF:

close your eyes, some angels can fly  
without me, I am done  
close your eyes, some angels might fly  
but never reach the ground again  
the worst way to survive  
(an easy way to die)

don't turn around sweet fool  
it's so bitter sweet you're so close to me  
a silhouette can't tell me  
you're so far away and so alone  
you just want back to where you've been before  
I took a shower went to work  
came back, seems you're not here  
I listened, heard you whispering on the floor  
it's alright don't care, just seems like it is out of control!

I really care sweet fool  
but I can't share my way with you  
you promised better times  
nothing changed except my sold TV  
your fucked up friends and all the mess in here  
show there's not a chance for change  
I'll pack my bags and go  
I listen, it's so quiet finally  
it's alright don't care, everything is out of control!

# TEACH me ANGER

REF:

teach me anger  
I need it to survive  
teach me anger  
no doubt, no lies

couldn't feel anger yesterday  
I can't feel it right now  
smack your fist in my face, sink your finger into my eyes  
make me bleed somehow  
give me a reason to hate from the bottom of my heart  
I didn't find it till now

couldn't feel anger yesterday  
I can't feel it right now  
rape my body my mind, hit me hard as you can  
to offer you my soul  
kill me slowly my friend  
you're the only one I know,  
no one's left that could bring me to that point  
to teach me anger somehow

# MY RIDE

REF:       rust in a garage  
              rumble in a side street  
              rage on a highway  
              get into a rut  
              rust in a garage  
              rumble in a side street  
              rage on a highway, don't stop  
              chasing my ride

overwhelm me, show me what you have  
underneath your last layer  
show me your inside  
overwhelm me, show me everything  
if you want to, I will use you  
you would make my life complete  
I'll treat you so well

I read about her  
I've seen pictures of her  
I fell in love on first sight  
I talked about her  
some friend called me nerd  
but couldn't get ya of my mind

I'd shoot someone  
can't afford a gun  
spent all my money for my ride  
you're my life, you're my daydreams  
you're my sleepless nights

# I don't MIND

Ref:

I don't mind nerd, I don't mind nerd  
it's a part of you  
I don't mind nerd, I don't mind nerd  
it's the way you do

I fell for a graze  
I fell for a friend  
I fell for a lousy look  
for a touch of your hand

I fell for a clown  
I fell for a fool  
I fell for a lively child  
but I fell for you

you're a saint, same time you are evil too,  
you try to reach the stars, can't even leave the flat  
but when you smile at me the world seems to stand still  
you're my friend, you're my lover  
my fan, you're my cover, my hold  
let's paint some pictures of what life will bring us nerd,  
the way we stay together and share our fucking life,  
and if we make it right, we'll catch the stars above  
cause you're my friend, you are my lover  
my fan, you're my cover, my hold

# GIRL

ref:

don't tread on me again  
I have to live my life as I am  
this time I'm taking my stand  
I have to live my life as a man

I got the 'right to do that,  
it's my own life that I "ruin"

I know a girl, her name is Lena  
she has a girlfriend she calls Tina  
some say her lifestyle is quite wrong  
but I know it, cause I've seen it, it's not boring at all  
at the dance they were holding hands  
some in the audience were getting mad  
Lena pulled Tina in for a kiss  
they turn around, the world around them didn't exist

a macho man told them to get lost  
what you're doing here's unnatural  
but the girls took a stand  
they didn't go they struck a blow for their romance  
don't give an inch, never give up,  
live up your dreams and never stop,  
don't give a shit on what the others say,  
you gotta live your life day by day

# OANA FIA OI

ref:

oana fia oi und oi fia nix,

dei lem long reisst da an oasch auf, damit hüfst im grunde

bei dem oan passiert a wunder, bei dem ondan a malär,  
wei de erwartungen so hoch san dass scho recht utopisch is  
und irgendwonn de oanzig lottn de no hoch liegt de in da fruah

jo de woitn si nua mausern zu dem großn allphaviech,  
bei de meisten woa des züh a bissl hochgesteckt wia ma siehcht  
danke jetzt is guat, denk i, jo so is es lem,  
i denk scho wieder zfüh, hob de naxte chance vergem.

# Mama YING yang

REF:

mama YING YANG playing with my ding dong, gently sucking  
long john  
is living with a couple of guys  
mama Ying Yang playing with their ding dongs, hardly sucking  
long johns  
smiled and told me to piss of and die....what a good advice

you look so fine  
I'm fuckin' out of my mind  
you're my sexual desire  
I'm fuckin' out of my mind  
you look so good within your clothe  
it must be better without those  
it must be better without skin  
I wanna have it everything  
my head is right between ya' breast  
there can't be any other place  
that's as beautiful as these  
it knocks me of my seat

I'm running out of time  
I'm fucking out of my mind  
you're the bird, I'm your wire  
you're on me, you're so kind  
you look so good within your clothe  
it must be better without those  
it must be better without skin  
I wanna have it everything  
if I could wear your skin I would  
it tastes like sex, it smells so good  
you're hips are gently rising up  
I'm stroking down to get on top

# Eyes ARE SHUT

REF:        bio kindness farewell  
              fuck yourself, go to hell  
              live your dream world  
              I'll wake you up  
              show you the rest nerd

open your eyes, open your eyes, open your eyes  
ready or not, "they're shut!"

your eyes are shut, your sun shines bright,  
there's nothing wrong, your world's alright  
your eyes are shut, don't disagree  
your eyes are shut, and you can't see  
your eyes are shut, you don't realise  
your eyes are shut, you're hypnotized

don't say a word, it could be wrong  
nothing changes, you're not alone  
your eyes are shut, there must be change  
your eyes are shut, it's not too late  
your eyes are shut, don't close your eyes  
your eyes are shut, you're hypnotized

# I'm ALRIGHT, alright

Ref:

I'm jailing to the sun  
I feel alright, alright  
and I don't need someone  
to understand what I become

I worked every night and day to defeat  
my hunger for respect and sympathy  
I need to feed my fucking soul  
to be the one I've been before  
I'm not fast enough in these short days  
can't still my hunger in any way  
where is my life, peel me out of my skin  
screaming, crying and bouncing without a soul

it's never enough in these short days  
just searching for a quiet place  
I need to feed my fucking soul  
to be the one I've been before  
I tried to get rid of my ill thoughts  
what can I do to be noticed then  
where is my life peel me out of my skin  
screaming, crying and bouncing without a soul  
(I'm not able to deal my life, I'm not able to kill myself)
